

Fast, Affordable & Efficient Wireless Internet with the Latest Technology

How's your internet access performing? Affordably priced, reliable, with an easy-to-work-with provider? Fed up with trying to reach a customer service agent that is actually helpful? Copper Canopy Networks is the newest wireless carrier in the region, and using the latest technology means we are more reliable and affordable than our competitors. We provide local service without surprises, and our fresh approach brings you the best wireless internet possible.

Local Business with Best-In-Class Service

We are headquartered in Stockton with exceptional customer service, local folks to answer your call and technicians in our communities. Stream content, download email attachments, and even play all of your favorite video games without worrying about your connection being throttled - or seeing a massive bill at the end of the month.

We bring you best-in-class service to enable your business or residence with fast and reliable service. We're a proud part of a 30-year legacy of providing service in California and Nevada and we're here to help 24/7/365!
