Transcription Texting

The Telephone Connection's live operator back-up locates our physicians when their pagers aren't functioning properly. The Telephone Connection also provides 24-hour customer service. We have always found their operators pleasant and their customer service staff are always willing to help. We have been very pleased with this service.

- Dr. Cheryl Dunnett | Medical Director | Cedars-Sinai Medical Group | 69 Internists & Specialists

The move to The Telephone Connection is one of the most efficient and successful changes that we have implemented in our office. The system is infallible. I have no hesitation in highly recommending this service to other physicians.

- Dr. Ivor Geft | Cardiology

I have used The Telephone Connection for many years, and have found the service more reliable and accurate than our previously costly, live operator answering service. It is particularly handy to be able to send and receive messages to and from the other Doctors in our group, and the other Doctors who use the service. I would highly recommend this service to anyone. It is cost effective and user-friendly.

- Dr. Edward H. Phillips Jr. | General Surgery

I've been using the Doctor's Service from The Telephone Connection for over 8 years. With this service I can hear the message with no changes or mistakes. Messages are accurate and the service is great. I was able to configure a system to meet my special needs. The ease of changing the message allows me the flexibility in mixing my professional and personal life.

- Dr. Ellie Goldstein | Infectious Disease

The service is superb, reliable, efficient, and easy-to-use. It cut my cost by more than 50% from a live operator service. It's also much better than a live operator service because it eliminates errors and 'excuses'. It's a great way to send Voice Mail messages to colleagues who also use the system.

- Dr. Seymore Levine | Internal Medicine

The Telephone Connection's Voice Mail service with live operator back-up saves the physicians and staff hours each week, and improves patient satisfaction immeasurably.

- Dr. Stephen Graham | Nephrology

I have been with The Telephone Connection for the past 10 years. As a physician I need an answering service that is professionally run and has excellent backup support. Should I fail to respond to a page within 1 hour, The Telephone Connection's live back up operator finds me, or one of my associates. I have no hesitation in recommending this service

- Dr. Ron Nagel | Pediatrics

Your voice mail service is top notch! Always efficient and responsive especially when it matters most - in emergencies!

- Dr. Ken S. Honbo | Endocrinology
