How to Open Up a Trouble Ticket

Opening up a trouble ticket to reach our customer service team is simple. It saves call wait times and gives you immediate support to your issues. Follow these easy steps to open up a ticket online:

1. In the home menu bar on uyt.co, navigate to the “Resources” tab. Underneath the tab you will see the “Open Trouble Ticket” page. This will lead you to a landing page to open up a ticket.

2. On the “Open Trouble Ticket” page you will see a form that will need to be filled out before your trouble ticket is submitted. Please note that if the “required” fields are not properly filled out the form will not submit. When filling out this form please give as much information as possible so our team can better assist you.

The screenshot shows the 'Open Trouble Ticket' page.
